UNITED STATES DISTRICT COURT FOR THE EASTERN DISTRICT OF PENNSYLVANIA

IN RE: NATIONAL FOOTBALL LEAGUE PLAYERS' CONCUSSION	No. 12-md-2323 (AB)
INJURY LITIGATION	MDL No. 2323
THIS DOCUMENT RELATES TO:	SHORT FORM COMPLAINT
District 2 March 4 Add 1 to 1 Add 1 To 1	IN RE: NATIONAL FOOTBALL
Plaintiffs' Master Administrative Long- Form Complaint and (if applicable)	LEAGUE PLAYERS' CONCUSSION INJURY LITIGATION
Smith et al.	MUCKI LITIGATION
v. National Football League [et al.],	
Kansas City Chiefs Football Club, Inc., only	
No. 2:14-cv-03383-AB	
	JURY TRIAL DEMANDED

SHORT FORM COMPLAINT

- 1. Plaintiff(s), <u>Darrell Colbert</u>, (and, if applicable, Plaintiff's Spouse) _____, bring(s) this civil action as a related action in the matter entitled IN RE: NATIONAL FOOTBALL LEAGUE PLAYERS' CONCUSSION INJURY LITIGATION, MDL No. 2323.
- 2. Plaintiff (and, if applicable, Plaintiff's Spouse) is/are filing this short form complaint as required by this Court's Case Management Order No. 2, filed April 26, 2012.
- 3. Plaintiff (and, if applicable Plaintiff's Spouse), incorporate(s) by reference the allegations (as designated below) of the Master Administrative Long-Form Complaint, as may be amended, as if fully set forth at length in this Short Form Complaint.

	of	, having be	een duly appointed as the
	by the	Court of	(Cross out
sentence belo	ow if not applicable.) Copi	ies of the Letters of Administra	ation/Letters Testamentary
for a wrongfu	al death claim are annexed	hereto if such Letters are requir	red for the commencement
of such a cla	im by the Probate, Surro	gate or other appropriate court	of the jurisdiction of the
decedent.			
5.	Plaintiff, <u>Darrell C</u>	Colbert is a residen	t and citizen of
Texas	and claims dama	ges as set forth below.	
6.	[Fill in if applicable] Pla	intiff's spouse,	, is a resident
and citizen of	f, and clain	ns damages as a result of loss of	of consortium proximately
caused by the	harm suffered by her Plai	ntiff husband/decedent.	
7.	On information and bo	elief, the Plaintiff (or decede	ent) sustained repetitive,
traumatic sub	o-concussive and/or concu	ssive head impacts during NFI	games and/or practices.
On information	on and belief, Plaintiff suff	ers (or decedent suffered) from	symptoms of brain injury
caused by the	e repetitive, traumatic sub-	concussive and/or concussive 1	head impacts the Plaintiff
(or decedent)	sustained during NFL gan	nes and/or practices. On informa	ation and belief,
the Plaintiff's	(or decedent's) symptoms	arise from injuries that are late	ent and have developed
and continue	to develop over time.		
8.	[Fill in if applicable] The	original complaint by Plaintiff	(s) in this matter was filed
in the 16 th	Circuit Court of Jackson	County, Missouri. If the case	e is remanded, it should be

remanded to the 16th Circuit Court of Jackson County, Missouri.

Case 2:12-md-02323-AB Document 6079 Filed 07/02/14 Page 3 of 29

	9. Plaintiff claims damages as a result of [check all that apply]:		
		<u>X</u> .	Injury to Herself/Himself
		_	Injury to the Person Represented
			Wrongful Death
			Survivorship Action
		<u>X</u>	Economic Loss
			Loss of Services
			Loss of Consortium
	10.	[Fill in	if applicable] As a result of the injuries to her husband,
			, Plaintiff's Spouse,, suffers
from a	loss of	consorti	ium, including the following injuries:
	-	loss of	marital services;
		loss of	companionship, affection or society;
	— .	loss of support; and	
	monetary losses in the form of unreimbursed costs she has had to expend		
	for the	health o	care and personal care of her husband.
	11.	[Check	if applicable] X Plaintiff (and Plaintiff's Spouse, if applicable)
reserve	e(s) the	right to	object to federal jurisdiction.

DEFENDANTS

12. Plaintiff (and Plaintiff's Spouse, if applicable) bring(s) this case against the following Defendants in this action [check all that apply]: Plaintiff brings this case against the Kansas City Chiefs Football Club, Inc., only, which is not identified below.

		National Football League
		NFL Properties, LLC
		Riddell, Inc.
		All American Sports, Inc. (d/b/a Riddell Sports Group, Inc.)
		Riddell Sports Group, Inc.
		Easton-Bell Sports, Inc.
		Easton-Bell Sports, LLC
		EB Sports Corporation
		RBG Holdings Corporation
	13.	[Check where applicable] As to each of the Riddell Defendants referenced above,
he cla	aims ass	serted are: design defect; informational defect; manufacturing defect.
	14.	[Check if applicable] The Plaintiff (or decedent) wore one or more helmets
lesign	ed and/	or manufactured by the Riddell Defendants during one or more years Plaintiff (or
lecede	ent) pla	yed in the NFL and/or AFL.
	15.	Plaintiff played in [check if applicable] $\underline{\mathbf{X}}$ the National Football League

("NFL") and/or in [check if applicable] ____ the American Football League ("AFL") during

1987-1988	for the following teams: The Kansas City Chiefs
Planting	
	CAUSES OF ACTION
16.	Plaintiff herein adopts by reference the following Counts of the Master
Administrativ	ve Long-Form Complaint, along with the factual allegations incorporated by
reference in	those Counts [check all that apply]: Plaintiff brings this case against the Kansas
City Chiefs	Football Club, Inc., only, which is not identified below. Likewise, Plaintiff's
causes of ag	gainst the Kansas City Chiefs Football Club, Inc., are not identified below.
Plaintiff's ca	uses of action are set forth in Para. 17.
	Count I (Action for Declaratory Relief - Liability (Against the NFL))
	Count II (Medical Monitoring (Against the NFL))
· ——	Count III (Wrongful Death and Survival Actions (Against the NFL))
	Count IV (Fraudulent Concealment (Against the NFL))
	Count V (Fraud (Against the NFL))
	Count VI (Negligent Misrepresentation (Against the NFL))
	Count VII (Negligence Pre-1968 (Against the NFL))
<u> </u>	Count VIII (Negligence Post-1968 (Against the NFL))
	Count IX (Negligence 1987-1993 (Against the NFL))
	Count X (Negligence Post-1994 (Against the NFL))

incor	porated	by reference in those Counts. See Attachment A.
<u>and</u>	attach	ed hereto as Attachment A, along with the factual allegations
<u>Petiti</u>	on, file	ed in the Circuit Court of Jackson County, Missouri, Case No. 1416-CV00043,
,	Plain	tiff herein adopts by reference the Counts set forth in Plaintiffs'
	17.	Plaintiff asserts the following additional causes of action [write in or <u>attach</u>]:
		Defendants))
		Count XVIII (Civil Conspiracy/Fraudulent Concealment (Against All
		Count XVII (Negligence (Against the Riddell Defendants))
	www.	Count XVI (Failure to Warn (Against the Riddell Defendants))
		Defendants))
		Count XV (Strict Liability for Manufacturing Defect (Against the Riddell
		Defendants))
		Count XIV (Strict Liability for Design Defect (Against the Riddell
		Count XIII (Negligent Retention (Against the NFL))
	_	Count XII (Negligent Hiring (Against the NFL))
		Count XI (Loss of Consortium (Against the NFL and Riddell Defendants))

PRAYER FOR RELIEF

WHEREFORE, Plaintiff (and Plaintiff's Spouse, if applicable) pray(s) for judgment as follows:

- A. An award of compensatory damages, the amount of which will be determined at trial;
- B. For punitive and exemplary damages as applicable;
- C. For all applicable statutory damages of the state whose laws will govern this action;
- D. For medical monitoring, whether denominated as damages or in the form of equitable relief;
- E. For an award of attorneys' fees and costs;
- F. An award of prejudgment interest and costs of suit; and
- G. An award of such other and further relief as the Court deems just and proper.

JURY DEMANDED

Pursuant to Federal Rule of Civil Procedure 38, Plaintiff(s) hereby demand(s) a trial by jury.

RESPECTFULLY SUBMITTED:

PETITION FOR DAMAGES

COMES NOW Plaintiffs, and for their claims and causes of action against Defendant, upon information and belief, state:

PLAINTIFFS

- 1. Plaintiff Neil Smith is a resident of Missouri. Mr. Smith was employed as a professional football player with the Kansas City Chiefs between 1988 and 1996.
- 2. Between September 1, 1987 and February 1993, Mr. Smith suffered multiple concussive and subconcussive blows to the head which caused or contributed to cause a constellation of neurologic/brain harms, including post-concussion syndrome (e.g. mood, behavior and cognitive dysfunction) and traumatic brain injuries, such as Chronic Traumatic Encephalopathy ("CTE").
- 3. Defendant's wrongful conduct, as alleged herein, directly caused or directly contributed to cause Mr. Smith to develop post-concussion syndrome (e.g. mood, behavior and cognitive dysfunction), and neurological impairments/damage, such as CTE.

- 4. Plaintiffs Stephone Paige and his wife Paula Paige are residents of California. Mr. Paige was employed as a professional football player with the Kansas City Chiefs between 1983 and 1992.
- 5. Between September 1, 1987 and January 1992, Mr. Paige suffered multiple concussive and subconcussive blows to the head which caused or contributed to cause a constellation of neurologic/brain harms, including post-concussion syndrome (e.g. mood, behavior and cognitive dysfunction) and traumatic brain injuries, such as CTE.
- 6. Defendant's wrongful conduct, as alleged herein, directly caused or directly contributed to cause Mr. Paige to develop post-concussion syndrome (e.g. mood, behavior and cognitive dysfunction), and neurological impairments/damage, such as CTE.
- 7. Plaintiffs Jayice Pearson and his wife Joi Pearson are residents of Missouri. Mr. Pearson was employed as a professional football player with the Kansas City Chiefs between 1986 and 1993.
- 8. Between September 1, 1987 and January 1993, Mr. Pearson suffered multiple concussive and subconcussive blows to the head which caused or contributed to cause a constellation of neurologic/brain harms, including post-concussion syndrome (e.g. mood, behavior and cognitive dysfunction) and traumatic brain injuries, such as CTE.
- 9. Defendant's wrongful conduct, as alleged herein, directly caused or directly contributed to cause Mr. Pearson to develop post-concussion syndrome (e.g. mood, behavior and cognitive dysfunction), and neurological impairments/damage, such as CTE.
- 10. Plaintiffs Trent Bryant and his wife Robin Bryant are residents of Missouri. Mr. Bryant was employed as a professional football player with the Kansas City Chiefs between 1982 and 1993 and in 1987.

- 11. Between September 1, 1987 and December 27, 1987, Mr. Bryant suffered multiple concussive and subconcussive blows to the head which caused or contributed to cause a constellation of neurologic/brain harms, including post-concussion syndrome (e.g. mood, behavior and cognitive dysfunction) and traumatic brain injuries, such as CTE.
- 12. Defendant's wrongful conduct, as alleged herein, directly caused or directly contributed to cause Mr. Bryant to develop post-concussion syndrome (e.g. mood, behavior and cognitive dysfunction), and neurological impairments/damage, such as CTE.
- 13. Plaintiff Charles Mincy is a resident of California. Mr. Mincy was employed as a professional football player with the Kansas City Chiefs between 1991 and 1994.
- 14. Between 1991 and January 1993, Mr. Mincy suffered multiple concussive and subconcussive blows to the head which caused or contributed to cause a constellation of neurologic/brain harms, including post-concussion syndrome (e.g. mood, behavior and cognitive dysfunction) and traumatic brain injuries, such as CTE.
- 15. Defendant's wrongful conduct, as alleged herein, directly caused or directly contributed to cause Mr. Mincy to develop post-concussion syndrome (e.g. mood, behavior and cognitive dysfunction), and neurological impairments/damage, such as CTE.
- 16. Plaintiff Darrell Colbert is a resident of Texas. Mr. Colbert was employed as a professional football player with the Kansas City Chiefs between 1987 and 1988.
- 17. Between September 1, 1987 and December 27, 1987, Mr. Colbert suffered multiple concussive and subconcussive blows to the head which caused or contributed to cause a constellation of neurologic/brain harms, including post-concussion syndrome (e.g. mood, behavior and cognitive dysfunction) and traumatic brain injuries, such as CTE.

- 18. Defendant's wrongful conduct, as alleged herein, directly caused or directly contributed to cause Mr. Colbert to develop post-concussion syndrome (e.g. mood, behavior and cognitive dysfunction), and neurological impairments/damage, such as CTE.
- 19. Plaintiff Paul Palmer is a resident of New Jersey. Mr. Palmer was employed as a professional football player with the Kansas City Chiefs between 1987 and 1988.
- 20. Between September 1, 1987 and 1988, Mr. Palmer suffered multiple concussive and subconcussive blows to the head which caused or contributed to cause a constellation of neurologic/brain harms, including post-concussion syndrome (e.g. mood, behavior and cognitive dysfunction) and traumatic brain injuries, such as CTE.
- 21. Defendant's wrongful conduct, as alleged herein, directly caused or directly contributed to cause Mr. Palmer to develop post-concussion syndrome (e.g. mood, behavior and cognitive dysfunction), and neurological impairments/damage, such as CTE.
- 22. Plaintiff Douglas Terry is a resident of Georgia. Mr. Terry was employed as a professional football player with the Kansas City Chiefs between 1991 and 1996.
- 23. Between 1991 and March 28, 1993, Mr. Terry suffered multiple concussive and subconcussive blows to the head which caused or contributed to cause a constellation of neurologic/brain harms, including post-concussion syndrome (e.g. mood, behavior and cognitive dysfunction) and traumatic brain injuries, such as CTE.
- 24. Defendant's wrongful conduct, as alleged herein, directly caused or directly contributed to cause Mr. Terry to develop post-concussion syndrome (e.g. mood, behavior and cognitive dysfunction), and neurological impairments/damage, such as CTE.

DEFENDANT

25. Defendant Kansas City Chiefs Football Club, Inc. is a Texas corporation with its principal place of business at One Arrowhead Drive, Kansas City, 64129, Jackson County, Missouri. At all times relevant herein, Defendant Kansas City Chiefs was Plaintiffs' employer. Defendant is a member of the National Football League ("NFL"), which is an unincorporated association consisting of 32 separately owned and independently operated professional football teams.

JURISDICTION

- 26. Jurisdiction is proper in this Court pursuant to R.S. Mo. 506.500 in that the tortious acts alleged herein took place in Missouri.
- 27. This is an action requesting relief under the common and statutory laws of the State of Missouri. Between September 1, 1987 and March 28, 1993, the relevant time period of Plaintiffs' injuries and claims, there was no collective bargaining agreement (CBA) in effect. Because federal labor law is not applicable to Plaintiffs' claims, and no interpretation of a CBA is required, section 301 of the Labor Management Relations Act cannot provide a basis for federal jurisdiction.
- 28. Plaintiffs' claims do not arise out of an "accident," as that term is defined under Missouri's Workers' Compensation Law. Plaintiffs' occupational disease-related claims were not caused by a specific event during a single work shift injury.
- 29. Plaintiffs' claims are not within the scope of workers' compensation and they are not subject to the exclusivity provisions of workers' compensation.

VENUE

30. Venue is proper with this Court pursuant to § 508.010. Upon information and belief, Plaintiffs were first injured by the wrongful acts and negligent conduct alleged herein in Jackson County, Missouri.

JOINDER OF CLAIMS

31. Joinder of Plaintiffs' claims are permissible pursuant to Rule 52.05(a) in that the claims alleged herein arise out of the same series of occurrences and involve common questions of law and fact.

TOLLING

32. Plaintiffs' membership in the putative class action currently pending in the Eastern District of Pennsylvania¹ tolled the running of the applicable statute of limitations. In addition, Defendant's fraudulent concealment of its bad acts as alleged herein prevented Plaintiffs from ascertaining the existence of these causes of action and their latent injuries, including a diagnosis of post-concussion syndrome and CTE.

GENERAL ALLEGATIONS

33. Like the tobacco industry in its efforts to minimize the relationship between its products and serious health conditions such as proposing alternative causes of those conditions, the professional football industry as exemplified by Defendant has taken efforts to minimize the relationship between its "product" which involves repetitive head trauma and serious health conditions, such as proposing alternative causes of those conditions and abnormal behaviors, including alcohol, steroids, depression, aggressive personality traits, etc.

¹ In re NFL Players' Concussion Injury Litigation, No. 2:12-md-02323-AB; See also, Charles Ray Easterling, et al v. NFL, No. 11-cv-0509 (filed August 17, 2011).

- 34. Defendant has known or should have known that since 1966 the Congress of Neurological Surgeons defined a concussion as a "clinical syndrome characterized by immediate and transient impairment of neural functions, such as alteration of consciousness, disturbance of vision, equilibrium, etc. due to mechanical forces." Defendant marginalized the risks of brain injuries and regularly referred to concussions as "getting your bell rung" or a "ding."
- 35. Defendant exacerbated Plaintiffs' risk of exposure to brain trauma by regularly returning concussed players to play. Defendant fostered a draconian working environment where Plaintiffs were forced to play through brain injuries. On multiple occasions, Defendant increased the dangers of the working environment by giving Plaintiffs ammonia inhalants, caffeine cocktails and/or Toradol to abbreviate the need for concussed employees to miss working time due to a brain injury.
- 36. Similarly, in order to reduce operating expenses, Defendant increased the risk of exposure to head trauma by installing AstroTurf (i.e. carpeted concrete). Multiple studies have concluded that there is a "statistically significant difference" between the injury rates on AstroTurf and grass.²
- 37. AstroTurf significantly increased the risk of exposure to head trauma in the following ways. First, AstroTurf increases the speed of play, which in turn reduces a player's chance to prepare for a violent hit to the head or body. On grass, the game is slower which allows a player to absorb hits by tensing up his muscles prior to a collision. Second, when a player's body slams down on concrete-like AstroTurf, the hard ground is incapable of absorbing the shock. Instead, the shock takes place in a player's head, causing the brain to violently rattle

² See, e.g. Powell JW, Schootman M: A multivariate risk analysis of selected playing surfaces in the National Football League: 1980 to 1989. American Journal of Sports Medicine 6:686-694, 1992.

against the skull. On grass, however, the organic padding of the grass and soil provides for natural shock absorption.

- 38. Despite there being a clear and much safer alternative (i.e. grass), Defendant provided a working environment that it knew was unreasonably dangerous and unnecessarily increased the risk of exposure. The primary reasons being: (1) it was cheaper and (2) the speed of the game was faster, which heightened the violence of the game, which in turn, increased the fans' attraction, and thereby significantly boosted the Defendant's revenue.
- 39. Defendant has known or should have known for many years that post-concussion syndrome (PCS) and cognitive impairment occurs in football players. PCS is widely known throughout the medical community and it can include the following, but not limited to, symptoms: cognitive deficits in attention or memory, fatigue, sleep disturbance, headache, dizziness, irritability, affective disturbance, apathy, or personality changes.
- 40. For decades, the scientific community has known that repetitive head trauma can lead to permanent and debilitating neurological impairments, including CTE.
- 41. Defendant has known or should have known for many years that neurologic dysfunction is found in athletes, including football players and boxers, with a history of repetitive head trauma. Published papers, easily accessible to Defendant, have shown that this condition is prevalent in boxers and retired professional football players who have a history of head injuries. The changes in the brain begin when the brain is subjected to repetitive trauma, but symptoms may not appear until months, years, or even decades after the last traumatic impact or the end of athletic involvement.

- 42. In 1928, pathologist Harrison Martland first described the link between repetitive head trauma and degenerative brain disease as the "punch drunk syndrome" in the *Journal of the American Medical Association*.
- 43. In 1934, Dr. Harry Parker published a study confirming Martland's findings and argued that neurological degeneration in boxers was based on the volume of brain trauma sustained. He further opined, "the frequency of occurrence of conditions of this kind as reported by...people who followed the profession of pugilism makes it seem very likely that [the patients'] profession led to their ultimate disablement...."
- 44. On December 29, 1937, at the Seventeenth Annual Meeting of the American Football Coaches Association, the football community acknowledged its keen awareness of the serious risks of concussions, and the necessity of removing an individual from play if they have suffered a concussion:

During the past seven years the practice has been too prevalent of allowing players to continue playing after a concussion. Again this year this is true....Sports demanding personal contact should be eliminated after an individual has suffered one concussion.

- 45. In 1937, J.A. Millspaugh introduced the term dementia pugilistica to describe the syndrome characterized by motor deficits and mental confusion in boxers. Millspaugh also noted that the disease is likely not limited to boxers but could extend to other sports where repetitive brain trauma is present: "The mental unbalance more commonly encountered among pugilists is also observed among other sports representatives who sustain considerable head trauma." He further opined, "[r]epeat and frequent concussions…are, to say the least, not conducive to stabilized mental equilibrium."
- 46. In 1949, British neurologist Macdonald Critchley published the first of two important studies on head trauma in boxers. In *Punch Drunk Syndrome: The Chronic Traumatic*

Encephalophathy of Boxers, Critchley described the latent effects of repetitive brain trauma, explaining that the condition was generally not observable until a number of years had passed since the onset of boxing. In 1957, Critchley published an article in the British Medical Journal and described the symptoms of "chronic progressive traumatic encephalopathy" to include "progressive slowing of speech and thoughts...slowness of movement, and tremors." Critchley further noted that brain damage produced by repetitive trauma could lead to personality changes, and that the effects of chronic head trauma are dependent on the volume of impacts as well as the magnitude of those events.

47. Over the next several decades, the evidence of the link between repetitive head trauma and neurological diseases was overwhelmingly clear. Numerous studies were published in medical journals including the *Journal of the American Medical Association, Neurology, Lancet*, the *New England Journal of Medicine* and *Physician and Sports Medicine* warning of the dangers of single concussions, multiple concussions, and/or football-related head trauma from multiple concussions. These studies collectively established:

repetitive head trauma in contact sports, including boxing and football, has potential dangerous long-term effects on brain function;

encephalopathy is caused in boxers, steeplechasers and football players by repeated sub-concussive and concussive blows to the head;

acceleration and rapid decelerations of the head that results in brief loss of consciousness in primates also results in a tearing of the axons (brain cells) within the brainstem;

immediate retrograde amnesia occurs following concussions;

mild head injury requires recovery time without risk of subjection to further injury;

a football player who suffers a concussion requires significant rest before being subjected to further contact; and,

- minor head trauma can lead to neuropathological and neurophysiological alterations, including neuronal damage, reduced cerebral blood flow, altered brainstem evoked potentials and reduced speed of information processing.
- 48. Although the condition now known as CTE has been discussed widely in the medical literature for more than eight decades, it was not until 2002 that CTE was officially diagnosed post-mortem in professional football players. Upon information and belief, this late finding was due to the Defendant's and its agents' concerted effort to conceal the link between repetitive head trauma in football and neurological diseases. Since 2002, more than 90% of all former players that have been examined post-mortem exhibited pathological symptoms consistent with CTE. The leading neuropathologist studying CTE, Dr. Ann McKee, believes that it is more likely than not that every single NFL player has some level of CTE.
- 49. The first professional football player to be diagnosed with CTE was a former Kansas City Chiefs player, Mike Webster. Webster played 17 years—his final two (1989 and 1990) with the Chiefs—in the NFL and tragically died only 12 years after retirement at the age of 50. During the latter part of his life, and while serving on Defendant's coaching staff, Webster manifested progressive symptoms and signs of cognitive and neuropsychiatric impairment consistent with CTE.
- 50. Research suggests that neurologic dysfunction such as CTE may have been the true primary cause of death for many professional football players that died as a result of neurodegenerative diseases. Accordingly, it is likely that the rate of neurological dysfunction such as CTE in professional football players is significantly higher than once believed.
- 51. The clinical manifestations/neurological dysfunction such as CTE are quite variable but can include a number of signs and symptoms including, headaches, short-term memory difficulties, aggressive tendencies, depression, impulse control, mode lability,

explosivity, poor judgment, loss of attention and concentration, executive dysfunction, impulsivity, language difficulties, suicidal ideations and ultimately cognitive impairment. All such earlier symptoms can then worsen, leading to more severe depression, mood swings become more violent, severe memory loss, and motor neuron disease may develop. End stage encephalopathy can then set in, with severe memory loss, dementia, executive dysfunction, language difficulties, explosivity, paranoia, gait and increased suicidal ideations and violence toward others.

- 52. The National Institute for Occupational Safety and Health recently issued a warning letter—since the Defendant failed to do so—to all former NFL players that played at least five seasons during 1959 to 1988, stating: due to the exposure of repetitive mild traumatic brain injuries the "risk of dying with a brain or nervous system disorder was more than 3 times higher among players." The warning letter went on to conclude that this study confirms a similar study that was done "years" ago. Further evidencing the campaign of deception and concealment, prior to the dissemination of this warning letter, a member of the NFL's Head, Neck and Spine Committee sought to remove any mention of CTE.
- 53. To date, more than fifty-two former NFL players have been diagnosed postmortem with CTE.
- 54. Despite the substantial body of independent scientific studies directly linking repetitive head trauma in football and neurological diseases, including CTE, Defendant never warned Plaintiffs and instead willfully misrepresented and/or concealed the risks.
- 55. As the purveyor of football in America, and as the leading expert in the field, Defendant owed a continuous duty to keep abreast of the scientific developments relating to

brain trauma which its employees were regularly exposed, and it was required to notify, inform and educate Plaintiffs and the public of any potential long-term risks of repetitive head trauma.

- 56. The Defendant's duty to warn was commensurate not only with its actual knowledge gained from its "research" and published studies but also with its constructive knowledge as measured by scientific literature and other available means of communication.
- 57. Upon information and belief, Defendant knew or should have known of the devastating nature and long-term effects of concussive and sub-concussive injuries long before Plaintiffs were exposed to repetitive brain trauma. Defendant had or should have had knowledge of studies that demonstrated a positive link between repetitive head trauma and neurological diseases in the 1920s, 1930s, 1940s, 1950s, 1960s, 1970s, 1980s, and 1990s. During those decades, Defendant's knowledge about the hazards of repetitive head trauma continued to accumulate, yet Defendant failed to warn Plaintiffs about those hazards.

COUNT I NEGLIGENCE

- 58. Plaintiffs incorporate by reference the allegations set forth in Paragraphs 1 through 57 as if fully set forth herein.
- 59. Defendant had a common law duty, separate and independent of any CBA, to use ordinary care to make its work environment reasonably safe.
- 60. Defendant owed a non-delegable and non-negotiable duty to maintain a safe working environment, a duty not to expose Plaintiffs to unreasonable risks of harm, a duty to warn employees about the existence of dangers, including latent neurologic diseases, of which they could not reasonably be expected to be aware, and a duty to exercise reasonable care so as not to expose its employees, including Plaintiffs, to unreasonable risk of injury.

- 61. Between September 1, 1987 and March 28, 1993, Defendant failed to use due care under the circumstances, and was thereby negligent in the performance of its non-delegable and non-negotiable duties.
- 62. Between September 1, 1987 and March 28, 1993, Defendant by its respective active and passive negligence failed to exercise the standard of care and skill it was obligated to exercise by reason of its relationship with Plaintiffs, undertakings and assumption of a duty thereby causing, creating or permitting an increased risk of exposure to repetitive brain trauma, and thereby failing to properly safeguard and warn Plaintiffs.
- 63. Such negligence directly caused or directly contributed to cause Plaintiffs to suffer from severe and persistent headaches, post-concussion syndrome (e.g. mood, behavior and cognitive dysfunction), depression, mood swings, explosivity, and, upon information and belief neurologic dysfunction such as CTE.
- 64. The conduct of Defendant as alleged herein was willful, wanton and/or in reckless disregard for the rights of Plaintiffs and punitive and exemplary damages should be assessed against Defendant.

WHEREFORE, Plaintiffs pray judgment against Defendant in excess of Fifteen Thousand Dollars (\$15,000.00) for actual damages, punitive damages, for the costs of this action, and for such relief as the Court deems fair and reasonable.

COUNT II NEGLIGENT MISREPRESENTATION

65. To the extent they are not inconsistent with the allegations in this Count, Plaintiffs incorporate by reference the allegations set forth in Paragraphs 1 through 64 as if fully set forth herein.

- 66. Defendant had a common law duty, separate and independent of any CBA, to use ordinary care to make its work environment reasonably safe.
- 67. Defendant owed a non-delegable and non-negotiable duty to maintain a safe working environment, a duty not to expose Plaintiffs to unreasonable risks of harm, a duty to warn employees about the existence of dangers, including latent neurologic diseases, of which employees could not reasonably be expected to be aware, and a duty to exercise reasonable care so as not to expose Plaintiffs to unreasonable risk of injury.
- 68. Between September 1, 1987 and March 28, 1993, Defendant and its agents represented to Plaintiffs that concussions are not a serious injury.
- 69. Between September 1, 1987 and March 28, 1993, Defendant and its agents represented to Plaintiffs that there are no long-term effects of concussions in NFL athletes.
- 70. When Defendant and its agents made these representations to Plaintiffs, the representations were driven by profit motives so that Plaintiffs would continue to play unimpeded by the risks of latent neurological diseases.
- 71. Between September 1, 1987 and March 28, 1993, Defendant failed to exercise reasonable care and competence when communicating this information, and as a result, the information presented to Plaintiffs was false and misleading.
- 72. Plaintiffs justifiably relied upon this information since Defendant was in a superior position of knowledge and Defendant could foresee that Plaintiffs would rely and intended that they do so.
- 73. Defendant's negligent misrepresentations directly caused or directly contributed to cause Plaintiffs to suffer from severe and persistent headaches, post-concussion syndrome

(e.g. mood, behavior and cognitive dysfunction), depression, mood swings, explosivity, and, upon information and belief neurologic dysfunction such as CTE.

74. The conduct of Defendant as alleged herein was willful, wanton and/or in reckless disregard for the rights of Plaintiff and punitive and exemplary damages should be assessed against the Defendant.

WHEREFORE, Plaintiffs pray judgment against Defendant in excess of Fifteen Thousand Dollars (\$15,000.00) for actual damages, punitive damages, for the costs of this action, and for such relief as the Court deems fair and reasonable.

COUNT III FRAUDULENT CONCEALMENT

- 75. To the extent they are not inconsistent with the allegations in this Count, Plaintiffs incorporate by reference the allegations set forth in Paragraphs 1 through 74 as if fully set forth herein.
- 76. At all relevant times hereto, Defendant was in a position of superior knowledge, which was not within the fair and reasonable reach of the Plaintiffs, nor would it have been discovered through the exercise of Plaintiffs' ordinary diligence.
- 77. Between September 1, 1987 and March 28, 1993, Defendant knew that repetitive head trauma in football created a risk of neurological diseases.
- 78. Between September 1, 1987 and March 28, 1993, Defendant was aware of, knew and understood the significance of the published medical literature dating from as early as the 1920s that there is a serious risk of short-term and long-term brain injury associated with repetitive head trauma in football, to which Plaintiffs were exposed.
- 79. Between September 1, 1987 and March 28, 1993, Defendant had a duty, separate and independent of any CBA, to disclose and/or inform Plaintiffs about these risks.

- 80. Between September 1, 1987 and March 28, 1993, Defendant knew that such information was material to Plaintiffs, and knew that Plaintiffs would rely upon it for accurate information.
- 81. Between September 1, 1987 and March 28, 1993, Defendant knowingly and fraudulently concealed from Plaintiffs the risks of repetitive head trauma, including the risk of latent brain disease, intending that Plaintiffs would rely upon such concealment.
- 82. Between September 1, 1987 and March 28, 1993, Plaintiffs relied upon the Defendant's inaccurate and misleading information.
- 83. Defendant's fraudulent concealment directly caused or directly contributed to cause Plaintiffs to suffer from severe and persistent headaches, post-concussion syndrome (e.g. mood, behavior and cognitive dysfunction), depression, mood swings, explosivity, and, upon information and belief neurologic dysfunction such as CTE.
- 84. The conduct of Defendant as alleged herein was willful, wanton and/or in reckless disregard for the rights of Plaintiff and punitive and exemplary damages should be assessed against Defendant.

WHEREFORE, Plaintiffs pray judgment against Defendant in excess of Fifteen Thousand Dollars (\$15,000.00) for actual damages, punitive damages, for the costs of this action, and for such relief as the Court deems fair and reasonable.

COUNT IV LOSS OF CONSORTIUM

85. To the extent they are not inconsistent with the allegations in this Count, Plaintiffs-Spouses incorporate by reference the allegations set forth in Paragraphs 1 through 84 as if fully set forth herein.

- 86. As a result of Defendant's misconduct as alleged herein, Defendant is liable to the Plaintiffs-Spouses.
- 87. As a direct and proximate result of the carelessness, negligence, and recklessness of Defendant and of the aforesaid injuries to their husbands, the Plaintiffs-Spouses have been damaged as follows:
 - a. They have been and will continue to be deprived of the services, support, maintenance, guidance, companionship and comfort of their husbands;
 - b. They have been and will continue to be required to spend money for medical care and household care for the treatment of their husbands; and
 - c. They have been and will continue to be deprived of the earnings of their husbands.
- 88. The conduct of the Defendant as alleged herein was willful, wanton and/or in reckless disregard for the rights of Plaintiffs-Spouses and punitive and exemplary damages should be assessed against Defendant.

WHEREFORE, Plaintiffs-Spouses pray for judgment against Defendant in excess of Fifteen Thousand Dollars (\$15,000.00) for actual damages, punitive damages, for the costs of this action, and for such relief as the Court deems fair and reasonable.

DEMAND FOR JURY TRIAL

Plaintiffs demand a trial by jury on all issues in this matter.
